

Infants Newsletter

Dear Parents and carers,

As the spring term ends we would like to share some of the amazing learning we have been doing across the infants phase. All the children have been very busy, working hard but having lots of fun.

Many thanks for your continued support and from all of us in the infant team and we wish you a lovely, peaceful Easter.

Yours sincerely,

The Infant Team

Early Years

Our new learning shed!

We were thrilled when we were able to win the top award of £4000 thanks to all of your support with Tesco Bags for Life.

Reception now have their brand new outdoor learning shed built in their garden.

The children have loved exploring their new shed, especially the new port hole and serving hatch.

A big thank you to all who helped us collect the Tesco tokens!

Chick This Out!

At the beginning of this half term Early Years got some eggs from Middle farm in Lewes. We looked after them in the incubator for 3 weeks and watched excitedly as they hatched. The children named them (from left to right) Rosie, Stripy Penguin, Batman and Max. All are doing very well and will be taken back to Middle Farm over the Easter break.

Down on the Farm!

Newts and Tadpoles
had such a lovely day
at Middle Farm
learning all about the
different animals.

This half term the second forest school group in Wrens Class have been visiting the forest every Wednesday afternoon. It has been so inspiring to watch the children take on every new activity with such enthusiasm and confidence. Over the weeks we have cooked bread and popcorn, explored the forest looking for mini beasts, built shelters and homes for animals, wilted sticks and learnt how to 'strike' to start a fire and in fact we are all pretty good at it.

The children's growth mind-set skills have supported the way they have approached these activities particularly in the way they showed perseverance. They should all be very proud of their achievements.

Year 1: Wrens

Year 1 at...

Where have the meerkats gone?

This snake feels very smooth.

Year 1 had so much fun at Drusillas Park! We enjoyed seeing a variety of animals, finding out lots of facts and imagining what life must be like for different kinds of creatures.

Year 2

This term Year 2 have had great fun learning all about animals and habitats in our topic 'Weird and Wild'. Throughout our topic we have enjoyed exploring the different habitats that we could find in our school grounds and even collected some creatures to investigate on our minibeast hunt!

We were very lucky to go on a fantastic trip to the British Wildlife Centre and we spent the day learning about the different animals and how they are looked after. Some of our favourite animals were a friendly fox called Flo, a fierce wildcat and a cute hedgehog named Turbo. We were able to see the keepers feed the animals and we asked lots of super questions to find out even more interesting information about them.
