## Early Years

*What's up there?*

*This term the Newts have become space experts! We have created our own Moon Diaries and shared our findings with each other.*

*Eliza explained that we can also see Mercury in the sky when looking at the moon.*

*Arlo drew each of the phases he saw and wrote about the day, weather and shape of the moon he saw.*

*Eloise painted a canvas of the different phases of the moon she saw in the sky. "There was a half moon."*

*The children in Tadpoles class have been  
learning all  
about rhyming  
words!*

*We used the picture clues to help us match up all of the words!*

*Devon matched the word cards  
to the words on the bingo board  
and then read them all  
independently.*

*Monty and Bear worked  
together to match the  
rhyming word cards.*

# Year 1

## Who is the greatest?

*This half term Robins have been learning about the different animal groups. We have enjoyed exploring what features an animal must have in order to belong to a particular group.*

*We hatched eggs to learn more about birds.*

*Birds hatch from eggs and so do fish and lizards but not animals like dogs and horses. Their mummy has them from their tummy.*

*We read riddles to discover which group of animals we would be focusing on.*

*Fishing for facts!*

*The dog is the odd one out because it has fur.*

*Which is the odd one out?*

*In Wrens Class the children were given three exotic fruits to try - papaya, passion fruit and pineapple. They then used their knowledge of the equator and weather patterns to locate the continent that they believed the fruits would grow - South America.*

*The pineapple is my favourite, it is very sweet!*

*The papaya is so slimy!*

*It looks like a plum but when you open it its amazing with lots of pips.*

*To support our project learning we have been working together to look at maps, read giant postcards from destinations around the world and take part in activities to find out which animals live in specific continents.*

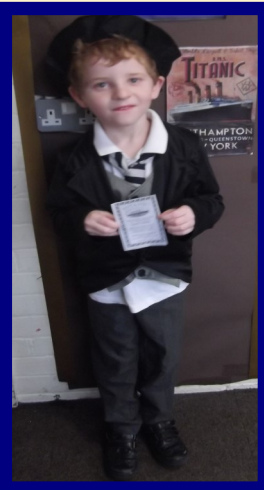

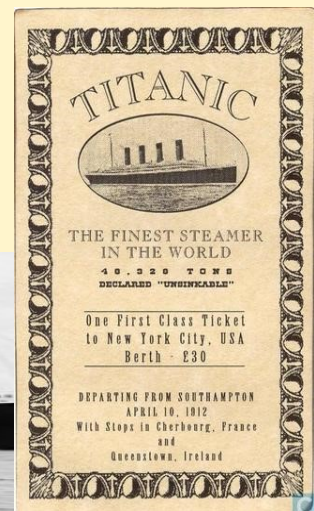

# Year 2

## Was life better then?

*On our first day back we boarded the Titanic! We each had our tickets and compared what it would have been like to travel in first, second and third class!*

*We went on a tour of the ship and wrote postcards home about our first day on the ship. Look at our fantastic costumes!*

*We had the most inspirational visit from a volunteer of the RNLI. We enjoyed hearing about the amazing work that they do and sharing our knowledge about sea safety and the Titanic!*

*We learnt about the different flags that you would find at the beach and what they mean!*

*We loved watching the videos of their lifeboat crew in action and were amazed by how many people could fit on each boat!*

*We have also been busy designing and making our own Titanic shoe box rooms!*
